Education

Federal University of Minas Gerais (UFMG)

08/2022 - 12//2024

Msc in Computer Science

Pontifical Catholic University of Minas Gerais (PUC Minas)

06/2021- 12/2023

Graduate Diploma in Systems Analysis and Development

Federal University of Minas Gerais (UFMG)

06/2017 - 09/2021

Bachelor of Science in Business Administration, GPA: 4.6/5.0

Relevant subjects: Undergraduate courses: Calculus, Analytical Geometry and Linear Algebra, Operational Research, Statistics I and II. Graduate courses: Stochastic Programming, Design and Analysis of Algorithms, Heuristics and Metaheuristics

Awards: Best Project of a Mobile App in class - PUC Minas (2022)

Skills

Programming: R, Python, SQL, C++, C#, Html, CSS and JavaScript

Languages: Portuguese (fluent), English (fluent), Spanish (intermediary) and French (elementary)

Certificates: English level B2 - PET (2013) e FCE (2014), from the University of Cambridge

Work Experience

Data Science Intern

04/2022 to 08/2022

RaiaDrogasil

- Developed an implicit recommendation system for product pages, based on product's category
- Optimized NLP-based categorization of apps' ratings and comments to provide better insights for the customers relations teams and internal performance indicators
- Tech Stack: Python | SQL | AWS | GitLab

Special Projects Intern

09/2019 to 07/2021

Municipality of Belo Horizonte

- Data cleaning of personnel information in proprietary software
- Emitted, checked and altered data in SQL reports

Other Experiences

Research fellow

03/2020 to 08/2021

Administrative Sciences Department - UFMG

- Developed a research in Network Science on the detection of anomalies in bidding processes, constructing a measure to check abnormal interactions in the networks
- Took part in a research group on modeling the pandemic, using Artificial Intelligence and Machine Learning techniques, together with Network Science concepts

- Cleaned data, modeled the network, analyzed and generated the result graphs with R

Research fellow

08/2017 to 08/2019

PET Administration - UFMG

- Consolidated team work abilities in a self-organized group with demands in projects of research and extension, including the planning and execution of workshops, talks, radio programs and qualitative research
- Was the editor in chief of a student academic magazine, Multifaces, from 01/2018 to 08/2019, leading an editorial team with 7 members in the publishing process of 2 editions and organizing the commemoration of the 10 year anniversary of the magazine
